IT Steering group meeting #27 -- 24th January 2019

Agenda

Present: Angel, Julie, Sarah

1. **Actions from last time.**

   - **Action: (Clemens)** Describe how to use udvikler.kbhff.dk in the development guide
   - **Action: (Angel/Clemens/Josh)** set up meeting with dev team - Review options for February/March
   - **Action: Sarah** to add guidance on CSS and JS in new git module to the guides.
     - https://docs.google.com/document/d/1NLocxs1cKRAXb6fuaNErqjUgOkwLZ2WkfOSwMokiLNs/edit#heading=h.f2plen8j4qfn
   - **Action: Sarah** looks into details such as cursor changing on the "accepter vilkar" page, and link to vilkar page is "funny".
   - **Action: Clemens** Coordinates with Mads to design the quotation boxes on members' images for the signup page.
     - We have agreed that the boxes should be made. Mads is happy to work with Clemens, but we need to: 1. Decide on how many boxes we want. 2. Decide who should be in the photos.
     - We need a photo consent form.
       - **Action: Clemens** to work with Sarah to find a basic photo consent form. Sarah has asked the communications group if they have one.
     - Julie's friend may be able to help take photographs. Or we can ask people to send us photographs - they should be "good" photographs.
       - **Action: Sarah** to check with the coordination meeting on Monday if anyone would like to be part of it and can send us a few test photographs.
     - We should ask Mads to make a few examples once we have some test photographs, so we find out whether we need specific photographs (resolution, lighting, etc).
   - **Action: Josh & Clemens** Work on Selenium tests
   - **Action: Martin and dev team reassess budget for phase 3c and onwards in the detailed tab of this table**
     - https://docs.google.com/spreadsheets/d/11OsAxAhToB-Lt8b941xDZHmwfbajZ6V0m9u0o8a4Poo/edit#gid=0
     - **Action: Julie** to remind the dev team.

2. **Bugs on old system - status**

They are fixed and we have access to the data in the database again. Thanks, Torsten.

3. **Testing feedbacks**
   See **https://trello.com/c/Nrq3FpBi**

We have added additional bugs onto the checklists. There are a lot of bugs that need to be fixed before we can do a full design / pixel perfect set of feedback. We are returning the card to the developers.

Discussions

How do we get people back to payment (e.g. of indmeldelsesgebyr) if they click out of the payment page and then log in later? Should it be a pop-up immediately after login? What should you be able to do in the system if you have unpaid orders? E.g. should you be able to get into the Medlemshjælp (e.g. if you haven't paid kontingent)?

Should your own profile be included in Medlemshjælp? That might open up for people prentending to pay their kontingent by marking it as paid by cash.

4. **Role issue and prototype rethinking**
   See **https://trello.com/c/sPVBvaQD**

We have agreed with the changed name to Find medlem from Medlemshjælp and to remove the Bestil button.
We have agreed to add to the Genbestil button to the Butiksvagt.
We want to keep the search bar as searching for all the properties, though they are not shown in the list.

We need to think about whether we want to show the order lists for other weeks. We are thinking probably not. And we need to make sure that the Udlever button is only active at a specific time.

ACTION: Sarah Work with Mads to add department and date to the title on Butiksvagt.
Action: Sarah. Ask Mads to change the navigation buttons to add Frivilligfunktioner or Medlemsfunktioner.

5. **Next meeting**

ACTION: Julie makes a doodle.

We should look at the persondata policy content.
We would have to make a page visible by the public anyway. And we would have to send the content to the already signed up people by email anyway. Would that be ok? The current prototype for sign up contains only a sign up link

Action: Sarah follow up on this. Discuss next meeting.
